CATALOGUE

Welcome

Since 1981 Bucas merged a great Irish equestrian tradition with the latest technical developments and experience from other industries, countries and markets. This has resulted in the development of a wide range of highly innovative and technically advanced products for your horse.

TERMS EXPLAINED

BALLISTIC NYLON, 1680 Denier

Ballistic nylon is extremely durable, made using a very tight knit “ballistic weave.” This is a half panama weave that is tear resistant in all directions.

RIPSTOP OUTER

Ripstop is the pattern of the weave that makes the material less prone to tearing. This weave helps prevent any rips that do occur from spreading through the material.

THERAPY

A specially formulated fabric from Bucas. The fabric reflects the naturally occurring magnetic fields within the body, improving circulation, helping to warm up muscles faster and promotes healing properties.

ANTIBACTERIAL

The anti-bacterial lining helps to keep the rug fresh and eliminates odours.

DERMO-CARE

Silky Dermo-care lining with wicking properties helps to dry the horse's coat after washing or exercise, keeping the coat smooth and soft.

STAY-DRY

Stay-dry fleece fabric wicks away moisture from your horse's skin.

SILK-FEEL

Silk-feel lining is smooth against your horse's skin and helps keep the coat in good condition.

ZEBRA EFFECT

Zebra stripes have been proven to confuse and repel flies.

OXFORD FABRIC

The basket type weave of Oxford fabric gives it durable and breathable properties, it ages well and gets softer with each use, it dries easily after washing and it has a good resistance to abrasion.

POLYESTER TWILL

The twill weave is characterized by its diagonal lines, which are created by an offset in the warp threads. Twill is very durable and hides stains well.

WATERPROOF

Waterproofing: > 5000 mm Hydrostatic head

BREATHABLE

Breathability: > 3000 g/24h/m²

LAYERING SYSTEM

Bucas Liners, Quilts and Coolers can be used under Turnouts as an extra layer of insulation.

SHOULDER DARTS

Shoulder Darts help to give your horse a more tailored fit across the chest and shoulder area. These are a signature design feature from Bucas.

BIG NECK

Big Neck style is a great fit for stallions and breeds of horses that tend to be wider across the shoulders like Connemaras, Friesians, Andalusians and Draughts.

ANTI-INSECT

Designed to repel insects.

CLICK'N GO

Click'n Go is a special patented closure only available from Bucas. Easy for a human to close and open but difficult for your horse!

SNAP-LOCK

Snap-lock magnetic closure keeps your Bucas rug correctly positioned on your horse. It eliminates the use of Hook and Loop closures on the chest, making it a more comfortable fit for your horse.

HEAT REFLECTIVE

Heat reflective rugs help to reflect the sunlight, preventing the rug from absorbing the heat and heating up the horse.

RECYCLED

Manufactured using Certified Recycled Materials.

Bucas Therapy Turnout

Bucas Therapy Turnout

The Bucas **Therapy Turnout** combines the superb durability and comfort of Bucas Ballistic Nylon Turnouts with the therapeutic properties of the Bucas Therapy fabric.

The Bucas Therapy material is made from an extremely fine, stainless steel mesh that reflects the magnetic fields created inside the body. This action stimulates blood circulation and oxygen flow in the horse's body and back, which heals and reduces swelling and inflammation, promoting faster healing. It can be left on the horse for 24 hours, seven days a week if necessary as it is NOT a magnetic rug. It is advised to slowly increase and monitor the use of the rug when first used.

These therapeutic rugs are the ideal choice for helping horses including those with back problems or who are a little slow to warm up before riding. It has been known to accelerate the recovery process of some ailments including arthritis and muscle pain. The therapy properties cannot be washed out.

The silky Dermo-care lining wicks away moisture and keeps the inside of the rug and the horse dry. This rug features the patented Click'n Go front with magnetic Snap-lock closure.

The optional Bucas Therapy Turnout Neck offers additional protection as well as the therapeutic properties of the Therapy Turnouts for the neck.

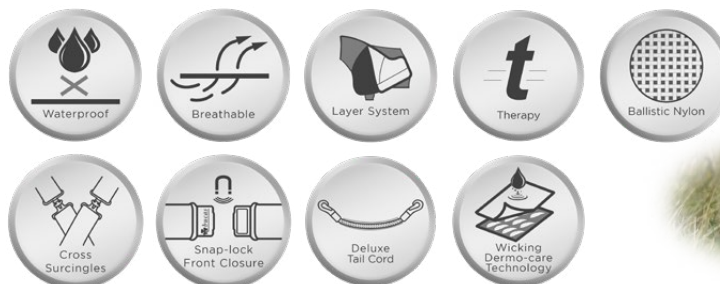

Available in Classic Cut only with the Neck sold separately. Therapy Turnout Light available in sizes 115/5'0 - 165/7'0. Therapy Turnout 150 available in sizes 85/3'6 - 165/7'0.

Greenline Turnout

BUCAS THE INTELLIGENT CHOICE

Greenline Turnout

The **Eco-Friendly Turnout** rug, combining great Bucas quality and design, with the use of recycled materials.

Bucas is dedicated to warming your horse, not the planet.

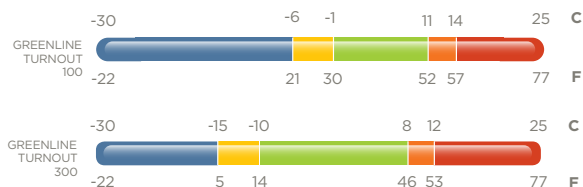

For the past number of years Bucas has been working hard to try and make our manufacturing as sustainable as possible. We worked closely with our fabric suppliers to find a recycled/ eco-friendly fabric that would be strong enough to use on a horse rug. Plastic bottles are crushed, shredded and spun into a yarn, which is then woven into a ripstop fabric. The production of this recycled yarn uses significantly less energy and water, and produces fewer greenhouse gas emissions.

All fabrics, the waterproof and breathable 600D ripstop outer fabric, insulation, lining, straps and binding are made using recycled yarn. The turnout comes with all the great features you would expect from Bucas — the popular Dermo-care lining, shoulder darts for best fit and comfort, T-bar front closure with signature magnetic Snap-lock and attachment points for a matching Neck — but with the peace of mind that your rug has been made ecologically and with the future in mind.

Available in classic cut with a matching Neck sold separately and in sizes 115/5'0 - 165/7'0.

Bucas Liner

BUCAS THE INTELLIGENT CHOICE

Bucas Liner

The **Bucas Liner** is an integral component of the continually expanding Bucas Layering System.

Available in 100g, 200g or 300g of Thermobonded insulation and gives you the ability to turn your light turnout into the perfect transitional Autumn rug or a heavyweight winter rug. The front neck closure attaches to the Neck attachment points and the rear attachment hook and loop strap attaches to the rear D-rings of your top rug.

The Polyester silky outer sits perfectly with both the Bucas Stay-dry lining rugs and the Bucas Silk-feel/Dermo-care lined rugs. It comes in a reduced depth and is quilted so the liner sits perfectly underneath your Bucas rug. The Liner comes with the convenient Dermo-care lining which helps to wick the moisture from your horse's skin while keeping the coat silky smooth.

Features Include:

- Polyester quilted outer
- Dermo-care lining
- Shoulder darts

The front neck closure attaches to the Neck attachment points, and the rear hook and loop strap attaches to the rear D-rings of your top rug. The polyester silky outer prevents bedding from sticking to your rug, while shoulder darts ensure ample space around the shoulders. The T-bar front closure with magnetic Snap-lock and cross surcingles keep the rug secure while in use.

Available in sizes 125/5'6 - 165/7'0

Features Include:

- Polyester outer
- T-bar with magnetic Snap-lock front closure
- Dermo-care lining
- Shoulder darts
- Cross surcingles

Bucas Therapy Liner

This range of therapeutic rugs are ideal for horses with back problems or those that are slow to warm up when riding. They can also accelerate the recovery process of some ailments in a natural environment. The therapy properties cannot be washed out as it is integrated into the fabric.

The Liner can be used under Bucas Turnout or Stable rugs that have front neck attachments and rear D-ring attachment points. The outer of the Liner is made of strong silky nylon, which sits perfectly under Bucas Stay-dry lining rugs and Bucas Silk-feel/Dermo-care lined rugs. It is available with 50g of Thermobonded insulation and is great for warming up your horse's muscles before work during competitions. The Silk-feel/Dermo-care lining helps keep your horse's skin in top condition while they feel the benefits of the Bucas Therapy!

Features Include:

- Therapy Material
- Polyester quilted outer
- Dermo-care lining
- Shoulder darts
- Reduced depth
- Front and rear attachment points for use under Bucas rugs
- 150g insulation

BUCAS THE INTELLIGENT CHOICE

Bucas Quilt & Neck

Bucas Quilt

The **Bucas Quilt** is a versatile stable rug that can be used on its own or as an extra layer under your Bucas Turnout or Stable rug.

The outer is a strong Oxford fabric which is durable and breathable. The quilt is available with 2 choices of lining – Stay-dry lining and Silk-feel Dermo-care lining. Both of these linings have moisture-wicking properties, with the Stay-dry lining acting faster because of its fleece texture and the Dermo-care silky lining smooth against the horse's skin.

Thermobonded insulation of 50g, 150g and 300g gives you a great selection of insulation for your horse. The range also is available in a Big Neck option which is ideal for horses that are wider across the chest and breeds of horses like Friesians, Andalusians and Draughts.

Sizes available are 85/3'6 – 170/7'2 in 150 SD, both Big Neck styles available in 125/5'6 – 165/7'0 and 300 SD, 300 SF, 150 SF and 50 SF all available in sizes 115/5'0 – 165/7'0. The Bucas Quilt Neck is also available in sizes XS-XL and is sold separately

Features Include:

- Oxford Fabric outer, 600D
- T-bar with Snap-lock closure
- Dermo-care (SF) or Stay-dry (SD) lining
- Shoulder darts
- Cross surcingles
- Silk-feel lining on shoulders (in SD version)

Shamrock Power
Black

Shamrock Power

The **Shamrock Power** is an ideal multi-functional rug that performs superbly as a sweat, travel or light stable rug.

Manufactured using two layers of Bucas Stay-dry fabric. The Shamrock Power has a Stay-dry, antibacterial inner lining, and a Polyester outer.

The Stay-dry fabric can be put on a wet horse and it wicks moisture away and ensures that the horse dries faster.

The anti-bacterial lining helps to keep the rug fresh and in good condition.

The polyester outer repels bedding, so should your horse lay down while wearing the cooler, minimal bedding will stick to the rugs unlike fleece coolers.

Available in sizes 85/3'6 - 170/7'2.

Features Include:

- Double layer heavyweight cooler
- T-bar with magnetic Snap-lock closure
- Stay-dry & Anti-bacterial lining
- Shoulder darts
- Detachable internal cross surcingles
- Silk-feel lining on shoulders
- Attachments for leg straps
- Fillet string
- Attachment points to use under any Bucas turnouts or stable rugs

Therapy Cooler

Bucas Therapy Coolers

The **Bucas Therapy** range helps to effectively prevent and treat a vast array of ailments. Effective and non-invasive therapy for your horse.

The therapeutic material is made from an extremely fine, stainless steel mesh which reflects the natural magnetic field created inside the body. This stimulates blood circulation and oxygen flow in the horse's body and back, which heals and reduces both swelling and inflammation, promoting faster healing. It can be left on your horse for 24 hours, seven days a week if necessary as it is NOT a magnetic rug, but it is advised to slowly increase and monitor the use of this or any therapy rug when first used.

This therapy is ideal for helping horses with back problems or those horses who are a little slow to warm up before riding. It also has been known to accelerate and compliment the recovery process of some ailments, in a natural environment. The therapeutic properties cannot be washed out.

The **Bucas Therapy Cooler** is designed to be used as a multi-purpose rug, suitable for travel, cooling down after exercise or as a stable rug. The cooler has the therapy fabric covering the back of the horse and Stay-dry fleece lower. This means the rug can be used on a sweaty or wet horse as the Stay-dry qualities will dry the horse, while enjoying the soothing relief of the therapeutic fabric. The Bucas Therapy Cooler is not only therapeutic for your horse, but also practical for you with its easy-to-use magnetic Snap-lock front closure and attachment points for use under Bucas rugs. Available in sizes 85/3'6 - 170/7'2, with a Big Neck version available in sizes 125/5'6 - 165/7'0. Bucas Therapy Cooler Neck sold separately.

Bucas Therapy Mesh Cooler rug is ideal for use during the warmer months of spring/summer/autumn. It comes with the same benefits as the other Bucas Therapy products but with a lightweight mesh lower to help circulate the air around the horse's body during hot/humid days. Available in sizes 115/5'0 - 165/7'0 with the Bucas Therapy Mesh Neck sold separately.

Bucas Therapy Cooler Neck and Mesh Neck are also available to complete the full body effect of the Therapy. The therapeutic material covers the mane and crest area of the horse, helping to increase the circulation to these areas. Silk-feel lining against the mane prevents rubs.

Buzz-Off Zebra & Neck

Buzz-Off Zebra

The **Buzz-Off Zebra** range of fly and insect products are made from a specially developed lightweight fine mesh fabric with Zebra print.

Research has discovered that flies hate the Zebra stripes as they find them confusing. They get disoriented by the contrast of the black and white stripes, compared to solid colours, and so tend to steer clear of them!

The **Buzz-Off Zebra Full Neck** rug provides protection for the horse's body and neck. The neck helps protect the mane from flies, and an elasticated brow band helps keep the neck piece in place as the horse grazes. The belly pad protects the belly of the horse and helps keep the rug in place. The large tail flap protects the tail from flies.

Also available with a detachable neck version, the **Buzz-Off Zebra & Neck** offers the same great features but with the convenience of a removable neck piece.

The **Buzz-Off Rain Zebra & Neck** has the Zebra fly sheet with a waterproof upper to protect your horse. The removable neck and waterproof upper offers full body and neck protection from flies as well as letting the rain roll off your horse's back.

Available in full neck version, in sizes 85/3'6 - 170/7'2 and removable neck, in sizes 115/5'0 - 165/7'0.

The **Sweet-Itch Zebra** is made from a specially developed fabric that blocks entry of the smallest of insects. The rug offers full body cover, with a neck that reaches to the ears covering the whole mane area. An elasticated, detachable belly pad covers from the elbow to the sheath, offering full body protection for your horse. The rug also offers UV protection for horses preventing sunburn and stopping the coat from getting bleached. Available in sizes 125/5'6 - 170/7'2.

Features Include:

- Zebra stripe
- T-bar with Snap-lock front closure
- Elasticated and detachable belly pad
- Shoulder darts
- Silk-feel lining on the shoulders
- Elasticated browband to help secure neck piece
- Tail flap
- Fillet string

Buzz-Off Range

The **Buzz-Off** range is made from a specially developed lightweight fine mesh fabric that helps block out flies.

The **Buzz-Off Full Neck** rug provides protection for the horse's body and neck. The elasticated and detachable belly pad ensures that the rug is kept in place as well as protecting the belly from insects and flies. Also available in a detachable neck version, the **Buzz-Off & Neck** gives you the flexibility for use without the neck piece.

The **Buzz-Off Rain & Neck** with removable neck is perfect for changeable summer weather. The upper part of the Buzz-Off Rain is waterproof and breathable while the lower part is made of Buzz-Off fly sheet fabric. Together you have a lightweight, UV protective and waterproof rug. The elasticated and detachable belly pad gives protection to the belly of the horse and helps to stabilise the rug in position.

The **Buzz-Off Classic** is ideal if there is no need for neck protection.

Buzz-Off Pro Mask

50

Superior breathability and effective fly protection, the Buzz-Off Pro Mask is designed for maximum functionality and unmatched performance.

The soft breathable fabric delivers an impressive >70% UV protection. The stiff fabric of the face mesh acts as a barrier against flies and offers UV protection.

A reinforced browband positions the mask away from the horse's forehead, allowing the high-tenacity face mesh to rest comfortably off the horse's face, ensuring ample eye clearance.

Soft fleece binding reduces friction, enhancing overall comfort.

Elasticated Hook & Loop closures offer convenient adjustability, ensuring a secure and customisable fit for your horse.

Sizes: Small - XLarge

Bucas Accessories

Therapy Saddle Pad

The **Bucas Therapy Saddle Pad** features the Bucas Therapy Material which helps to warm up the muscles quicker and promotes the circulation of blood in the muscles.

The saddle pad also helps the horse cool down slower preventing any build-up of lactic acid which can be a factor for some horses. The pad features a waffle lining which will absorb the horse's sweat, while not interfering with the Therapy material.

Available in Dressage and All-purpose/Jump cut, with hook and loop attachment points and girth loops to keep the pad in place under the saddle and a high whithers/shaped back makes it a comfortable fit. Fits 17" – 18" saddles

Product Codes:

- 774 Bucas Therapy Saddle Pad – Jump
- 775 Bucas Therapy Saddle Pad – Dressage

Max Saddle Pad

The **Bucas Max Saddle Pads** are layered with our Antibacterial Stay-dry fabric. This layer helps remove sweat and moisture from the horse's back, ensuring that it is always a comfortable fit. The anti-bacterial lining helps to keep the saddle pad fresh.

Quilted with high-density wadding and hook and loop attachment points and girth straps helps keep the pad in place under the saddle.

Available in:

- Black with silver piping,
- Navy with silver piping,
- Navy with gold piping,
- White with white piping

Fits 17" – 18" saddles.

Bucas Travel Products

2020 Boots

The **Bucas 2020 Boots** are made of tough outer nylon fabric and a Stay-dry inner lining. Cushioned padding helps to fully contour to the horse's leg.

Three large straps on the front boot and four large straps on the rear boot, and elasticated top and bottom straps on front and hind boot help secure the fit of the boots.

The unique front boots close differently to normal traditional travel boots.

The straps fasten forward, this means the boots close across the tendons leaving the back of the knee open, for ease of movement but covering the front of the knee to protect the joint from any bangs or injury while travelling.

The Stay-dry lining helps to dry wet legs faster so by the time you finish your journey home and remove the travel boots your horse's legs will be dry and comfortable!

Available in Full and Cob in Black and Navy. Sold in sets of four.

Bucas Helpful Tips

How to **measure** your horse!

To provide your horse with the optimal fit, comfort and protection that it deserves, it is important to select the most appropriate rug for your horse.

When choosing a Bucas Rug, you must consider two factors:

- The measurement of the horse in relation to the size of rug that it needs
- The temperature range for which the rug you choose is most suited

The following instructions outline a step-by-step approach to measuring your horse for a Bucas rug to provide an optimal fit, comfort and ease of movement.

Bucas recommends that the horse be measured from (A) the center point of the chest, over the high point of the shoulder, and then to (B) the rear of the hind leg. When you have the measurement, choose the nearest size from the table below, or email: admin@bucas.com and we can post a Bucas measure tape to you.

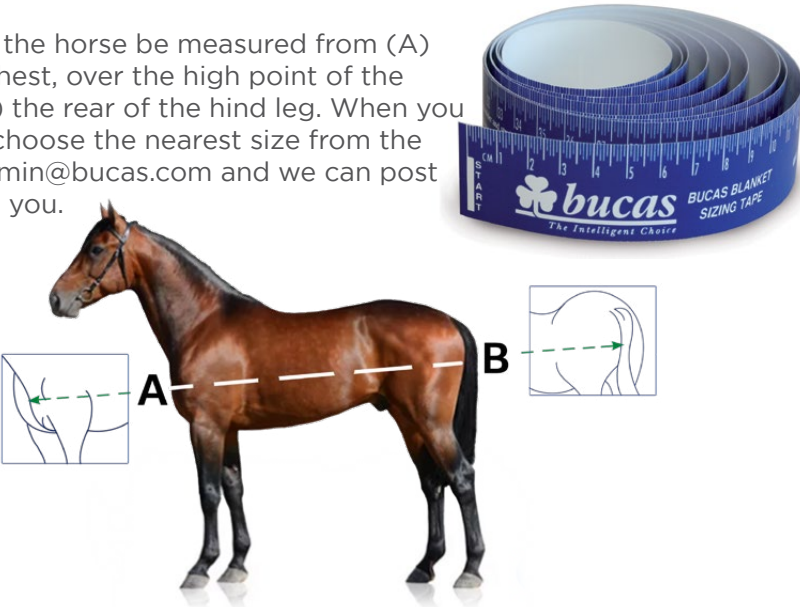

Table of Measurements															
CMs	107	114	122	130	137	145	152	160	168	175	183	191	198	204	212
EU	85	90	95	100	105	110	115	120	125	130	135	140	145	155	170
UK	3'6	3'9	4'0	4'3	4'6	4'9	5'0	5'3	5'6	5'9	6'0	6'3	6'6	6'9	7'2

Tips for Washing your Bucas Rug

- Before placing your Bucas rug into the washing machine, close all hook and loop straps as the rug can stick to it and any dirt that is in the machine will stick to it.
- Clip up any surcingles so that they are not left flapping around in the machine.
- If washing your Bucas cooler make sure to brush off any additional bedding or dirt off the rug, this will help the rug come out even cleaner!
- Don't wash your Bucas products over 30°C as this may effect the performance of your Bucas product!
- Make sure to use the Bucas Rug Wash for washing all your Bucas products.
- It's always advisable to reproof your waterproof rugs after washing. Keep your waterproof product functioning correctly by using Bucas Rug Conditioner after washing.
- If you have any small nicks or tears to your Bucas rug, we recommend using our Bucas repair kit. This kit will provide you with the necessary aids to repair these small tears.

HOW TO EXTEND YOUR BUCAS GUARANTEE

- Bucas offers a 2 year guarantee against any manufacturing or material faults but you can extend it to 3 years on our Power, Smartex, Atlantic and Therapy Turnout range of rugs.
 - All you need is your proof of purchase, like your receipt and the details from the label on the rug.
 - Your rug must be registered within 30 days of purchase.
 - Guarantee does not include normal wear and tear and accidental damage.
 - Limitations apply.

How to Measure your Dog

To measure your dog correctly for a Bucas dog rug place the measuring tape where the collar usually sits on your dogs neck and measure the length of the dogs back to the start of the tail. This measurement will give you the correct size when purchasing your Bucas dog rug.
